Effective Hair Loss Treatments

**Confidential, personalised treatment
for natural restoration, from your understanding pharmacist**

Noticing hair loss / thinning?

Personal consultation & treatment plan

Avoiding the mirror / social activities?

Restore natural, thicker-looking hair

Increased shedding when you brush?

Slow hair loss & encourage regrowth

Lost self-confidence?

Enjoy life-enhancing results

Hair affected by hormones?

Clinically-proven topical & oral medications

Brock Street fully-supported hair loss treatment plans, for natural-looking, life-enhancing and confidence-restoring results.

Finasteride Oral Medication

(Not recommended for women)

Simple, once-daily oral tablet; highly effective hair loss prevention, improved hair density and increased hair count with sustained use.

Minoxidil (Regain) topical foam application

(For men and women)

Easily applied daily treatment; reduces hair loss and thinning, stimulates new hair growth, visibly increases hair follicle thickness.

**Treatment plans personalised to your lifestyle,
hair condition and desired results
Easy once-a-day pill or foam application**
